

LEADING EDGE AUTOMATION DRIVEN BY DESIGN

A European masterpiece loaded with technology and features normally considered optional, this machine maximizes capacities and efficiencies, delivering a world-class sheet of ice.

**MODEL
612
ELECTRIC**

 Ergonomic blade angle adjustment wheel feature allows each operator to customize placement for ease of access.

 Internationally recognizable icons are grouped together on-dash to reference machine systems and functions.

 Cylindrical power board brush reaches higher for superior cleaning power and is a standard feature.

BATTERY AND CHARGER

Lithium-ion batteries charge quickly between resurfacings, eliminating overnight charging. Sealed zero maintenance batteries are truly emission-free. Charging is controlled by battery management system to optimize charging and balancing.

ELECTRONIC CONTROLS

Dependable AC controls. Two electric auger motors. Electrically operated water valves. Emergency stop feature. Electric wheel motors. On-dash display of battery capacity, water level and speed.

HYDRAULICS

Electric hydraulic pump motor. Speed-related ice making water system controls water distribution. Safety valve for snow tank and conditioner hydraulics. Hydraulic all-wheel braking.

STANDARD FEATURES

Automatic snow breaker; tire wash; water level gauges; back up alarm; non-stick snow tank liner; wash water to ice making water transfer; snow tank light; adjustable steering wheel; wash water flow monitor; extended hand rail and premium heated seat.

CONSTRUCTION

Steel body panels and galvanized steel chassis/frame conditioner. Stainless steel high capacity water tanks. Rugged belt-driven augers reduce noise in operator area. Premium paint for corrosion resistance.
