

INDUSTRY LEADING CAPACITIES ACROSS THE BOARD

Designed for large ice sheets, the Model 700 optimizes use of space for a dramatic increase in capacities. A wider blade and double the ice-making water makes swift work of big surfaces.

**MODEL
700**

-  Powerful and efficient hydraulics deliver consistent performance at any speed.
-  Ease of operation with familiar automobile style controls and gauges
-  Exceptional results from our unrivaled down pressure system

POWER AND EFFICIENCY

The six-cylinder 4.3 L engine powers through the additional demands of larger ice surfaces. Engine can be configured for gasoline or propane.

TRANSMISSION

Continuously variable hydrostatic pump and motor are axial-piston type, providing superior on-ice power with maximum drawbar pull. Full hydro-dynamic braking.

DRIVETRAIN

Four-wheel drive. Rugged Dana Spicer® axles combine with an innovative hydrostatic transmission, providing the most reliable drivetrain in the industry.

HYDRAULICS

Efficient double pump delivers full power and speed to the augers, even while the machine slows for corners. Easy access to high quality, low maintenance filters.

CONSTRUCTION

Robust hand-welded steel tubing chassis. Premium primer/paint and galvanized ice-making water tanks for corrosion resistance in the harsh environment it will call home.

GLOBAL SERVICE AND SUPPORT

Zamboni Customer Service and a network of Zamboni Authorized Distributors provide exceptional and accessible service and support worldwide.
